

**Node Summit 2018**  
Mission Bay Conference Center  
San Francisco, CA • July 23-25, 2018  
Day Zero - July 23, 2018

As part of your sponsorship or exhibition, your event organizer has arranged for Qrious smartphone-based lead retrieval from EventHero to help you collect and follow-up on more leads, more quickly.

#### **Here's how it works:**

- 1. You'll receive an email** invitation from EventHero for the Qrious lead retrieval system. (It's best if you read it on your iPhone or Android smartphone. Not using iPhone or Android? Qrious Lead Retrieval can also work with Blackberry and Windows Phone. Ask us how.)
- 2. Tap the download link.** You will automatically be redirected to the right app store for your device.
- 3. After downloading the Qrious smartphone app, login or create an account using your business email address.** Ask the members of your exhibiting team to do the same - you can add as many team members to your account as you like for unlimited badge scanning.
- 4. Tap the [+]** button and enter your **Exhibitor Code**, which was included in the invitation email. Ask your team members to do the same. You'll each be granted exhibitor privileges for your company.
- 5. Provide payment.** Included in the email invitation will be a link to provide payment for your license. The license fee for unlimited team badge scanning is \$198.00 for the event, payable in advance. The on-site rate is \$248.00, so don't delay.

#### **Downloading Your Leads**

At any time during or after the event, login to your Exhibitor Control Panel by visiting **[app.eventhero.io/exhibit](http://app.eventhero.io/exhibit)** to download your leads. You can import that data into your favorite CRM system, contact database or smartphone.

#### **Questions?**

The EventHero team is available to help.
